MEMORANDUM

TO: Village Board

FROM: Michael R. Pollocoff, Village Administrator

DATE: December 2, 2013

SUBJECT: Architectural Services Agreement (AIA Document B101-2007, AIA Document B101-2007 Exhibit A & AIA Document E201-2007) between the Village of Pleasant Prairie and Plunkett Raysich Architects, LLP for the Fire Station #1 Project

In September 2013, the Village released RFP #13-01 entitled "Fire & Rescue Station #1 New Construction Architectural & Engineering Services" for a new Fire Station #1 to be located on the Village-owned parcel located immediately north of the Village Hall. The Project involves two (2) "phases" of design and construction with a total budget of approximately \$5.4 M. In general, the Project consists of the:

- a) Design of a new Fire Station #1
- b) Rehabilitation of the existing Fire Station #1 into meeting space/auditorium

RFP #13-01 was solicited to five (5) established architectural firms with an established record of designing public fire stations and other public buildings: FGM Architects, Five Bugles Design, Kluber Architects, Partners In Design Architects and Plunkett Raysich Architects. On October 11, 2013, the Village received responses to RFP #13-01 from all five firms.

The Village RFP Selection Committee reviewed and ranked the candidate responses (based on criteria such as experience in fire station design and renovation, qualifications of staff and subcontractors, references, "green" technology experience and expertise and fees) and concluded that FGM Architects, Five Bugles Design and Plunkett Raysich Architects were the candidates most qualified to move forward into the presentation/interview stage of the process.

On November 8, 2013, the Village conducted interviews of the three selected finalists. The RFP Selection Committee concluded that based on the criteria mentioned, that Plunkett Raysich Architects was the firm that excelled in the presentation/interview stage. Therefore, with its qualifications, experience, presentation/interview, and competitive fee, the Selection Committee chose to enter into contract negotiations with Plunkett Raysich Architects.

	ESTIMATED TOTAL FEE	ESTIMATED TOTAL HOURS
FGM ARCHITECTS	\$374,000	3,360
FIVE BUGLES DESIGN	\$310,000	Not Provided
KLUBER ARCHITECTS	\$354,950	2,364

RECOMMENDATION

The Village staff recommends that the Village Board approve the Architectural Services Agreement for the Fire Station #1 Project between the Village of Pleasant Prairie and Plunkett Raysich Architects for a flat fee of \$270,000, plus reimbursables. If the cost of construction is +/- 10% of \$480,000, the fee will be adjusted accordingly.

If the Owner and Contractor modify AIA Document A201-2007, those modifications shall not affect the Architect's services under this Agreement unless the Owner and the Architect amend this Agreement.

§ 3.6.1.2 The Architect shall advise and consult with the Owner during the Construction Phase Services. The Architect shall have authority to act on behalf of the Owner only to the extent provided in this Agreement. The Architect shall not have control over, charge of, or responsibility for the construction means, methods, techniques, sequences or procedures, or for safety precautions and programs in connection with the Work, nor shall the Architect be responsible for the Contractor's failure to perform the Work in accordance with the requirements of the Contract Documents. § 3.6.2.1 The Architect shall visit the site at intervals appropriate to the stage of construction, or as otherwise required in Section 4.3.3, to become generally familiar with the progress and quality of the portion of the Work completed, and to determine, in general, if the Work observed is being performed in a manner indicating that the Work, when fully completed, will be in accordance with the Contract Documents. However, the Architect shall not be required to make exhaustive or continuous on-site inspections to check the quality or quantity of the Work. On the basis of the site visits, the Architect shall keep the Owner reasonably informed about the progress and quality of the portion of the Work completed, and report to the Owner (1) known deviations from the Contract Documents and from the most recent construction schedule submitted by the Contractor, and (2) defects and deficiencies observed in the Work.

§ 3.6.2.2 The Architect has the authority to reject Work known not to conform to the Contract Documents. Whenever the Architect considers it necessary or advisable, the Architect shall have the authority to require inspection or testing of the Work in accordance with the provisions of the Contract Documents, whether or not such Work is fabricated, installed or completed. However, neither this authority of the Architect nor a decision made in good faith either to exercise or not to exercise such authority shall give rise to a duty or responsibility of the Architect to the Contractor, Subcontractors, material and equipment suppliers, their agents or employees or other persons or entities performing portions of the Work.

§ 3.6.2.3 The Architect shall interpret and decide matters concerning performance under, and requirements of, the Contract Documents on written request of either the Owner or Contractor. The Architect's decisions on matters relating to aesthetic effect shall be final if consistent with the intent expressed in the Contract Documents.

§ 3.6.2.5 Unless the Owner and Contractor designate another person to serve as an Initial Decision Maker, as that term is defined in AIA Document A201-2007, the Architect shall render initial decisions on Claims between the Owner and Contractor as provided in the Contract Documents.

§ 3.6.3 CERTIFICATES FOR PAYMENT TO CONTRACTOR

§ 3.6.3.1 The Architect shall review and certify the amounts due the Contractor and shall issue certificates in such amounts. The Architect's certification for payment shall constitute a representation to the Owner, based on the Architect's evaluation of the Work as provided in Section 3.6.2 and on the data comprising the Contractor's Application for Payment, that, to the best of the Architect's knowledge, information and belief, the Work has progressed to the point indicated and that the quality of the Work is in accordance with the Contract Documents. The foregoing representations are subject (1) to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, (2) to results of subsequent tests and inspections, (3) to correction of minor deviations from the Contract Documents prior to completion, and (4) to specific qualifications expressed by the Architect.

§ 3.6.4.2 In accordance with the Architect-approved submittal schedule, the Architect shall review and approve or take other appropriate action upon the Contractor's submittals such as Shop Drawings, Product Data and Samples, but only for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. Review of such submittals is not for the purpose of determining the accuracy and completeness of other information such as dimensions, quantities, and installation or performance of equipment or systems, which are the Contractor's responsibility. The Architect's review shall not constitute approval of safety precautions or, unless otherwise specifically stated by the Architect, of any construction means, methods, techniques, sequences or procedures. The Architect's approval of a specific item shall not indicate approval of an assembly of which the item is a component.

§ 3.6.4.3 If the Contract Documents specifically require the Contractor to provide professional design services or certifications by a design professional related to systems, materials or equipment, the Architect shall specify the appropriate performance and design criteria that such services must satisfy. The Architect shall review shop drawings and other submittals related to the Work designed or certified by the design professional, properly licensed in the State in which the Project is being constructed, retained by the Contractor that bear such professional's seal and signature when submitted to the Architect. The Architect shall be entitled to rely upon the adequacy, accuracy and completeness of the services, certifications and approvals performed or provided by such design professionals.

§ 3.6.4.4 Subject to the provisions of Section 4.3, the Architect shall review and respond to requests for information about the Contract Documents. The Architect shall set forth in the Contract Documents the requirements for requests for information. Requests for information shall include, at a minimum, a detailed written statement that indicates the specific Drawings or Specifications in need of clarification and the nature of the clarification requested. The Architect's response to such requests shall be made in writing within any time limits agreed upon, or otherwise with reasonable promptness. § 3.6.5 CHANGES IN THE WORK

§ 3.6.5.1 The Architect may authorize minor changes in the Work that are consistent with the intent of the Contract Documents and do not involve an adjustment in the Contract Sum or an extension of the Contract Time. Subject to the provisions of Section 4.3, the Architect shall prepare Change Orders and Construction Change Directives for the Owner's approval and execution in accordance with the Contract Documents.

§ 3.6.5.2 The Architect shall maintain records relative to changes in the Work.

§ 3.6.6 PROJECT COMPLETION

§ 3.6.6.1 The Architect shall conduct inspections to determine the date or dates of Substantial Completion and the date of final completion; issue Certificates of Substantial Completion; receive from the Contractor and forward to the Owner, for the Owner's review and records, written warranties and related documents required by the Contract Documents and assembled by the Contractor; and issue a final Certificate for Payment based upon a final inspection indicating the Work complies with the requirements of the Contract Documents.

§ 3.6.6.2 The Architect's inspections shall be conducted with the Owner to check conformance of the Work with the requirements of the Contract Documents and to verify the accuracy and completeness of the list submitted by the Contractor of Work to be completed or corrected.

§ 3.6.6.3 When the Work is found to be substantially complete, the Architect shall inform the Owner about the balance of the Contract Sum remaining to be paid the Contractor, including the amount to be retained from the Contract Sum, if any, for final completion or correction of the Work.

§ 5.1 Unless otherwise provided for under this Agreement, the Owner shall provide information in a timely manner regarding requirements for and limitations on the Project, including a written program which shall set forth the Owner's objectives, schedule, constraints and criteria, including space requirements and relationships, flexibility, expandability, special equipment, systems and site requirements. Within 15 days after receipt of a written request from the Architect, the Owner shall furnish the requested information as necessary and relevant for the Architect to evaluate, give notice of or enforce lien rights.

§ 5.2 The Owner shall establish and periodically update the Owner's budget for the Project, including (1) the budget for the Cost of the Work as defined in Section 6.1; (2) the Owner's other costs; and, (3) reasonable contingencies related to all of these costs. If the Owner significantly increases or decreases the Owner's budget for the Cost of the Work, the Owner shall notify the Architect. The Owner and the Architect shall thereafter agree to a corresponding change in the Project's scope and quality.

§ 5.3 The Owner shall identify a representative authorized to act on the Owner's behalf with respect to the Project. The Owner shall render decisions and approve the Architect's submittals in a timely manner in order to avoid unreasonable delay in the orderly and sequential progress of the Architect's services.

§ 5.4 The Owner shall furnish surveys to describe physical characteristics, legal limitations and utility locations for the site of the Project, and a written legal description of the site. The surveys and legal information shall include, as applicable, grades and lines of streets, alleys, pavements and adjoining property and structures; designated wetlands; flood plains; adjacent drainage; rights-of-way, restrictions, easements, encroachments, zoning, deed restrictions, boundaries and contours of the site; locations, dimensions and necessary data with respect to existing buildings, other improvements and trees; and information concerning available utility services and lines, both public and private, above and below grade, including inverts and depths. All the information on the survey shall be referenced to a Project benchmark.

§ 5.5 The Owner shall furnish services of geotechnical engineers, which may include but are not limited to test borings, test pits, determinations of soil bearing values, percolation tests, evaluations of hazardous materials, seismic evaluation, ground corrosion tests and resistivity tests, including necessary operations for anticipating subsoil conditions, with written reports and appropriate recommendations.

§ 5.6 The Owner shall coordinate the services of its own consultants with those services provided by the Architect. Upon the Architect's request, the Owner shall furnish copies of the scope of services in the contracts between the Owner and the Owner's consultants. The Owner shall furnish the services of consultants other than those designated in this Agreement, or authorize the Architect to furnish them as an Additional Service, when the Architect requests such services and demonstrates that they are reasonably required by the scope of the Project. The Owner shall require that its consultants maintain professional liability insurance as appropriate to the services provided.

§ 5.7 The Owner shall furnish tests, inspections and reports required by law or the Contract Documents, such as structural, mechanical, and chemical tests, tests for air and water pollution, and tests for hazardous materials.

§ 5.8 The Owner shall furnish all legal, insurance and accounting services, including auditing services, that may be reasonably necessary at any time for the Project to meet the Owner's needs and interests.

§ 5.9 The Owner shall provide prompt written notice to the Architect if the Owner becomes aware of any fault or defect in the Project, including errors, omissions or inconsistencies in the Architect's Instruments of Service.

§ 5.10 Except as otherwise provided in this Agreement, or when direct communications have been specially authorized, the Owner shall endeavor to communicate with the Contractor and the Architect's consultants through the Architect about matters arising out of or relating to the Contract Documents. The Owner shall promptly notify the Architect of any direct communications that may affect the Architect's services.

§ 5.11 Before executing the Contract for Construction, the Owner shall coordinate the Architect's duties and responsibilities set forth in the Contract for Construction with the Architect's services set forth in this Agreement. The Owner shall provide the Architect a copy of the executed agreement between the Owner and Contractor, including the General Conditions of the Contract for Construction.

§ 5.12 The Owner shall provide the Architect access to the Project site prior to commencement of the Work and shall obligate the Contractor to provide the Architect access to the Work wherever it is in preparation or progress.

§ 5.13 The Owner shall make available a staff person or retain a consultant to furnish a list of new and reused equipment to the Architect. The listing shall have attachments which describe relocation or installation criteria such as floor loading characteristics, ceiling support requirements, noise and radiation shielding, vibration damping, electrical and emergency power requirements, plumbing and gas piping requirements, ventilation and exhaust requirements and rough opening sizing and servicing clearances for all Owner-supplied equipment. In the absence of Owner-supplied information, the Architect will field measure and verify the above as an Additional Service.

§ 5.14 The Owner shall furnish services for civil engineering. The Civil Engineer shall show stormwater ponds, including size and location, site grading, balanced cut and fill calculations, roads, walks and parking lots. After coordinating his work with the plumbing engineers, the Civil Engineer shall indicate the location and size of site utilities. The Civil Engineer shall also indicate the size and location of all wetland areas on the site, if any.

ARTICLE 6 COST OF THE WORK

§ 6.1 For purposes of this Agreement, the Cost of the Work shall be the total cost to the Owner to construct all elements of the Project designed, coordinated or specified by the Architect and shall include all structural, mechanical, electrical, fire protection, and contractors' general conditions costs, overhead, profit and management fees. The Cost of the Work does not include the compensation of the Architect, the costs of the land, rights-of-way, financing, or other costs that are the responsibility of the Owner.

(Paragraphs deleted)

§6.1.1 Major alternates that are excluded from the actual Construction Contract shall be included in Cost of the Work. Examples include alternate finishes, materials, system, or products which are used to bring costs into budget or change the scope of Work to reduce the Construction Construct amount.

§ 6.1.2 The Cost of Work includes the value of sales tax not paid and the value of all Owner-supplied or donated labor and materials. The Cost of the Work also, includes the cost of MAJOR FIXED equipment such as laundry equipment, elevator equipment, fueling stations, fencing, food service equipment, walk-in, recessed and pass-through refrigerators, storage units, casework, high density filing systems, hoods, chillers, generators, communication equipment lockers, chalk boards, mechanical and electrical equipment.

§ 6.1.3 The Cost of Work shall include an Owner's contingency fund of 5.0% of the total estimated Construction Cost of this Project in addition to the Contractors estimate of Construction Cost. The purpose of this fund will be to pay for any unanticipated changes that occur during the course of the design and construction of the Project.

§ 6.1.4 Evaluations of the Owner's Project budget, the preliminary estimate of Construction Cost and detailed estimates of Construction Cost, if any, prepared by the Architect, represent the Architect's judgment as a design professional familiar with the construction industry. It is recognized, however, that neither the Architect nor the Owner has control over the cost of labor, materials or equipment, over the Contractor's methods of determining bid

prices, or over competitive bidding, market or negotiating conditions. Accordingly, the Architect cannot and does not warrant or represent that bids or negotiated prices will not vary from the Owner's Project budget or from any estimate of Construction Cost or evaluation prepared or agreed to by the Architect.

§ 6.1.5 No fixed limit of Construction Cost shall be established as a condition of this Agreement by the furnishing, proposed or establishment of a Project budget, unless such fixed limit has been agreed upon in writing and signed by the parties hereto. If such a fixed limit has been established, the Architect shall be permitted to include contingencies for design, bidding and price escalation, to determine what materials, equipment, component systems and types of construction are to be included in the Contract Documents, to make reasonable adjustments in the scope of the Project and to include in the Contract Documents alternate bids as may be necessary to adjust the Construction Cost and the Owner's contingency to the fixed limit. Fixed limits, if any, shall be increased in the amount of an increase in the Contract Sum occurring after execution of the Contract for Construction.

§ 6.1.6 If the Bidding or Negotiation Phase has not commenced within 90 days after the Architect submits the Construction Documents to the Owner, any Project budget or fixed limit of Construction Cost shall be adjusted to reflect changes in the general level of prices in the construction industry.

§ 6.1.7 If the lowest bona fide bid exceeds the Owner's budget or negotiated proposal, the Owner shall:

- .1 give written approval of an increase in such fixed limits; or
- .2 authorize rebidding or renegotiating of the Project within a reasonable time; or
- .3 terminate in accordance with Section 9.4; or
- .4 cooperate in revising the project scope and quality as required to reduce the Construction Cost.

§ 6.1.8 If the Owner chooses to proceed under Section 6.1.8.4, the Owner will compensate the Architect for redesign to bring the project into budget.

ARTICLE 7 COPYRIGHTS AND LICENSES

§ 7.1 The Architect and the Owner warrant that in transmitting Instruments of Service, or any other information, the transmitting party is the copyright owner of such information or has permission from the copyright owner to transmit such information for its use on the Project. If the Owner and Architect intend to transmit Instruments of Service or any other information or documentation in digital form, they shall endeavor to establish necessary protocols governing such transmissions.

§ 7.2 The Architect and the Architect's consultants shall be deemed the authors and owners of their respective Instruments of Service, including the Drawings and Specifications, and shall retain all common law, statutory and other reserved rights, including copyrights. Submission or distribution of Instruments of Service to meet official regulatory requirements or for similar purposes in connection with the Project is not to be construed as publication in derogation of the reserved rights of the Architect and the Architect's consultants.

§ 7.3 Upon execution of this Agreement, the Architect grants to the Owner a nonexclusive license to use the Architect's Instruments of Service solely and exclusively for purposes of constructing, using, and maintaining the Project. The Architect shall obtain similar nonexclusive licenses from the Architect's consultants consistent with this Agreement. The license granted under this section permits the Owner to authorize the Contractor, Subcontractors, Sub-subcontractors, and material or equipment suppliers, as well as the Owner's consultants and separate contractors, to reproduce applicable portions of the Instruments of Service solely and exclusively for use in performing services or construction for the Project.

§ 7.3.1 In the event the Owner uses the Instruments of Service without retaining the author of the Instruments of Service, the Owner releases the Architect and Architect's consultant(s) from all claims and causes of action arising from such uses. The Owner, to the extent permitted by law, further agrees to indemnify and hold harmless the Architect and its consultants from all costs and expenses, including the cost of defense, related to claims and causes of action asserted by any third person or entity to the extent such costs and expenses arise from the Owner's use of the Instruments of Service under this Section 7.3.1. The terms of this Section 7.3.1 shall not apply if the Owner rightfully terminates this Agreement for cause under Section 9.4.

§ 7.4 Except for the licenses granted in this Article 7, no other license or right shall be deemed granted or implied under this Agreement. The Owner shall not assign, delegate, sublicense, pledge or otherwise transfer any license

Init.

granted herein to another party without the prior written agreement of the Architect. Any unauthorized use of the Instruments of Service shall be at the Owner's sole risk and without liability to the Architect and the Architect's consultants.

§ 7.5 AIA Wisconsin supports a policy of not allowing an outside agency, including but not limited to Contractors, reproduction companies, and Owners, permission to use an Architect's copyrighted documents, in either hard or electronic form, without prior agreement and to treat the release of these documents to Owners or any other outside agency as a service. Documents created by the Architect are copyrighted intellectual property and permission to duplicate or use these documents will not be granted without obtaining an inclusive liability release.

§ 8.1.2 To the extent damages are covered by property insurance, the Owner and Architect waive all rights against each other and against the contractors, consultants, agents and employees of the other for damages, except such rights as they may have to the proceeds of such insurance as set forth in AIA Document A201-2007, General Conditions of the Contract for Construction. The Owner or the Architect, as appropriate, shall require of the contractors, consultants, agents and employees of any of them similar waivers in favor of the other parties enumerated herein.

§ 8.1.3 The Architect and Owner waive consequential damages for claims, disputes or other matters in question arising out of or relating to this Agreement. This mutual waiver is applicable, without limitation, to all consequential damages due to either party's termination of this Agreement, except as specifically provided in Section 9.7. The waiver applies to tort and contract actions and both parties agree to the contract language with full knowledge of Wisconsin Stat. 895.447.

ARTICLE 9 TERMINATION OR SUSPENSION

§ 9.1 If the Owner fails to make payments to the Architect in accordance with this Agreement, such failure shall be considered substantial nonperformance and cause for termination or, at the Architect's option, cause for suspension of performance of services under this Agreement. If the Architect elects to suspend services, the Architect shall give seven days' written notice to the Owner before suspending services. In the event of a suspension of services, the Architect shall have no liability to the Owner for delay or damage caused the Owner because of such suspension of services. Before resuming services, the Architect shall be paid all sums due prior to suspension and any expenses incurred in the interruption and resumption of the Architect's services. The Architect's fees for the remaining services and the time schedules shall be equitably adjusted.

§ 9.2 If the Owner suspends the Project, the Architect shall be compensated for services performed prior to notice of such suspension. When the Project is resumed, the Architect shall be compensated for expenses incurred in the interruption and resumption of the Architect's services. The Architect's fees for the remaining services and the time schedules shall be equitably adjusted.

§ 9.3 If the Owner suspends the Project for more than 90 cumulative days for reasons other than the fault of the Architect, the Architect may terminate this Agreement by giving not less than seven days' written notice.

§ 9.4 Either party may terminate this Agreement upon not less than seven days' written notice should the other party fail substantially to perform in accordance with the terms of this Agreement through no fault of the party initiating the termination.

§ 9.5 The Owner may terminate this Agreement upon not less than seven days' written notice to the Architect for the Owner's convenience and without cause.

§ 9.6 In the event of termination not the fault of the Architect, the Architect shall be compensated for services performed prior to termination, together with Reimbursable Expenses then due and all Termination Expenses as defined in Section 9.7.

§ 9.7 Termination Expenses are in addition to compensation for the Architect's services and include expenses directly attributable to termination for which the Architect is not otherwise compensated, plus an amount for the Architect's anticipated profit on the value of the services not performed by the Architect.

§ 9.8 The Owner's rights to use the Architect's Instruments of Service in the event of a termination of this Agreement are set forth in Article 7 and Section 11.9.

RE: Printing and mailing services for the 2014 Village Newsletter (January to December)

In the interest of securing the most competitive responsible bid for printing and mailing services (not including postage) for the monthly Village Newsletter, we have requested proposals for annual printing of the 2014 Village Newsletter for the months of January through December. On October 30, a request for proposal was sent to a pool of area printers that have the equipment to perform this type of project in a cost effective manner. The request was also posted to Vendornet, which distributed the request to a long list of vendors throughout the State. By the deadline, Wednesday, November 20, seven (7) sealed bids had been received. One (1) additional bid was received, however, it was not considered, as it was not submitted as a sealed bid.

Vesna Savic and I opened sealed bids on the afternoon of Wednesday, November 20. Information from the seven sealed bids received appears on the attached spreadsheet.

Recommendation:

Considering that the majority of issues during 2014 are expected to be 8-page, 2-color issues, the lowest bidder was InTech (the commercial side of Inland Printing) of LaCrosse, Wisconsin. The InTech bid returned for an 8-page issue is \$1,300.00. InTech will honor their bid throughout the period of the contract and will meet the other stated selection criteria.

LaCrosse Graphics had been the vendor for the 2011, 2012 and 2013 Village Newsletters. While I haven't worked with InTech before, the sales rep for InTech is familiar with the job, as he used to work for LaCrosse Graphics.

It is my recommendation that the contract for printing and mailing services for the 2014 Village Newsletter be awarded to InTech.

Re: Ambulance Fee and Permit Fee Revisions

The Fire & Rescue Department is requesting to make changes to the Village Ordinance pertaining to the Fire & Rescue Department. Changes include:
